P1	Making sketch for the prototype build plan	2026-10-01	AC

READS

THE MODULE AND THE PARTS INSIDE IT

HANDS ON

WHERE IT GOES

This module's object in colour, the rest of the kit in grey

SIZES THAT MATTER

Evidence rules: TRL 1 to 6 today

Badge: one line, rewritten only when the TRL changes

Cap: TRL 3 in this portfolio phase

HOW TO MAKE IT AND HOW IT FITS

- Carry over the evidence rules for TRL 1 to 6 and the phase cap.
 - Add the badge writer (RDK-DDR-003, change P5): it writes the TRL badge line at the top of the README from the claimed TRL, so the badge can no longer disagree with the project file.
 - Add the decision-wording rule of R13: a decision written as made with no owner and date fails (wording still open, O4).
- Fits: reads the reader's record (joint 1); the badge line and the PDF cover take the same TRL value (joint 3).
- Check: a TRL claimed one level above its evidence fails; the badge changes when, and only when, the TRL changes.

INTERFACE VIEW

What the module reads, the parts inside it and what it hands on; not to scale
